Week's Happenings in Brief

#### NOTICE

Owing to Friday of this week-July 1st-being Dominion Day, and a public holiday, all places of business in Wetaskiwin will be closed. The public is requested to bear this in mind, and not come in to do any trading.

Mr. E. D. McLaughlin, of Calgary, spent the week end the guest of W. J. Lorgie.

J. W. Cameron leaves in a few days for Wolf Creek, where he intends going into business.

Nurse Ulyett left on Tuesday morning for her home near Stettler, where she expects to spend the summer.

Wild strawberries are now in season and a splendid crop. They are about the first of our wild fruits to ripen.

If you make good butter you should have your name on every pound. Butter wrappers printed at The Times office.

Miss Emma Rowe, of Dunville, Ont., arrived in the city on Monday evening on a visit to her friend Miss A. F. McCallum.

Andrew Wallace, formerly of Red Willow, but now of Wolf Creek, was in the city this week renewing acquaintances.

We understand that several families of Wetaskiwin will leave in a few days for Pigeon Lake, where they will spend some weeks camping.

Jas. B. Hogg, of Wetaskiwin, fireman for the C.P.R., has been spending a few days with friends in town, while recovering from an attack of the measles.-Dayland Press.

S. Jackson, Chester, Tra and Edward Newman, who have been attending to the business of the C.P.R. at Wetaskiwin, are expected to leave at last to spend the summer vacation.

A large crowd gathered at the race track on Monday evening to witness a matched race between a pony owned by Mr. Cox and Neil Campbell's "Auctioneer." After a well contested race, the former won. It is thought that over \$500 changed hands.

Any who are skeptical about the growth in the Wetaskiwin district should see the sample of rye at Bradley, Smith & Martin's office. It was brought in from the farm of Mr. Schreffels, four miles from town and measures a little over sixty inches.

Mr. and Mrs. Frank Pike will spend the next two months in Newfoundland. They left Tuesday morning for Winnipeg, Toronto, and the Thousand Islands, sailing about July 1st from Montreal. During Mr. Pike's absence, his place as head of the Merchants Bank at Camrose, will be filled by his brother.

Mrs. West has as her guest Mrs. Harry DeGreayer, of San Francisco. This is Mrs. DeGreayer's first visit to Alberta and she enjoys so much meeting the people and seeing our wonderful country. Mrs. DeGreayer spends much of her time in travel, being as much at home in one country as another.

We are receiving enquires from different districts as to why there are no news items published in The Times from the localities from which they live. It is easily explained. No correspondent to be found. We are only too glad to publish the news and it is up to the people themselves to send it in. Nothing like having the happenings recorded and we are here to do our part. Send it along please.

We join the host of friends in extending the heartiest congratulations to Stanley, the brilliant son of Mr. and Mrs. N. D. Jackson, on the very high standing that he obtained at the examinations at Western Canada College. He not only passed with the highest honors in all subjects, but won the silver medal for highest standing in industry, courtesy and integrity, as well as the medal presented by R. B. Bennett, M.P.P., for languages.

The general hot wave in the east promises to be a boon to the general public who got fruit from the Niagara district. Strawberries are ripening so fast that the market will soon be glutted and the lowest prices on record will prevail.

## HAMMOCKS

Now is the time to enjoy your Verandah or Lawn. Get a Hammock and comfort is yours.  
The price is small, very small, Come and see.

**City Plumbing Store**

## "I HONESTLY BELIEVE 'FRUIT-A-TIVES'"

### The Greatest Cure For Rheumatism In The World

KNOWLEDGE, QUB., Oct. 12th, 1909.  
"For many years, I suffered from severe Rheumatism, and the attacks were very distressing and prevented me from doing my ordinary work. I tried many remedies and physicians' treatment, but nothing seemed to do me much good, and I was becoming very anxious for fear I would become a permanent cripple from the disease."

"I tried 'Fruit-a-tives' and this medicine has entirely cured me and I honestly believe it is the greatest Rheumatism cure in the world."

E. K. MILLS.  
Such a statement could not be bought from a man like Mr. Mills. He thinks too much of his good name to sell it or sign it to an untruth. Mr. Mills tried 'Fruit-a-tives' after all other treatment failed—and 'Fruit-a-tives' cured him of Rheumatism. In the goodness of his heart, he wrote the above letter in order that sufferers in all parts of Canada would know that there is one remedy that actually does cure Rheumatism. This testimonial was entirely unsolicited on our part. We did not know that Mr. Mills was taking 'Fruit-a-tives' until we received the above letter.

It is as easy as Mr. Mills' that proves the marvellous powers of 'Fruit-a-tives' in arresting and curing disease. It may be stated, without fear of contradiction, that 'Fruit-a-tives' will positively cure Rheumatism when properly used. 'Fruit-a-tives' is the only medicine in the world made of fruit juices and is the greatest Rheumatism cure known to modern science. See a box, 6 for \$2.50, or trial box, 25c. Sold by all dealers or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

### City News Items

#### Week's Happenings in Brief.

D. French, city weighmaster, is off duty for a few days through illness.

A. J. Hancock, of Vancouver spent the week end in the city with relatives.

To-morrow (Friday) being Dominion Day, all places of business in the city will be closed.

There not being a quorum present no meeting of the city fathers was held on Tuesday evening.

Mr. and Mrs. F. L. Talbot are taking up house keeping in one of the cottages on Beatrice street.

C. F. Purdy, of Castor, formerly of the Merchants Bank staff here, spent the week-end renewing acquaintances.

Winter wheat and barley have been heading out the past week in this district. Other grain is in splendid condition.

Rev. J. H. Ridgell, D. D., principal of Alberta College, was in town this week collecting for the building fund of the new Theological College which is now under construction in Strathcona.

Mrs. Bullock, sr., arrived in the city on Monday to join her husband, who will likely be here for some time looking after the business of his son, who will be detained at the coast indefinitely.

Services in the Presbyterian church last Sunday were conducted by Rev. Mr. Archibald, of Ponoka. For the next two Sundays, it is expected that Rev. Mr. Stewart of High River will have charge.

Mr. Wm. Bell, who has been occupying a position as wine clerk in the Strand hotel, left on Wednesday with his wife and family for Strathcona, where he has accepted a similar position in the Dornation hotel.

R. M. Angus met with a painful accident on Tuesday evening, when he stepped on a piece of glass that cut the side of the shoe and entered the foot, cutting one of the small arteries. He is now around by the assistance of a cane.

Messrs. A. N. Hanner and J. W. Mohler of Oshawa were transacting business in the city on Monday. Mr. Hanner is a former resident of the Lewisville district, who went back to the States, but returned this spring and located in the Oshawa district.

The examinations are in progress at Alexander school. Inspector, Mr. Nally and Mr. Bailey, of Edmonton being the presiding officers. Standards V and VI will conclude their work this week, and standards VII and VIII will commence writing on Monday.

At a meeting of the Wetaskiwin branch of the Alberta Fish and Game Protective Association held on Friday evening last, it was decided to affiliate with the Provincial Association as quickly as possible. A large number of friends of sports were in attendance at the meeting and the by-laws for the local association were adopted.

Joe Cowan has given us the information that he will in the near future negotiate for an airship of the latest modern conveniences. Mr. Cowan is a very up-to-date business man. In the early days he was confined to the engine and so conditions changed he took to the horse, then the automobile and his next step will be the limit.

Joe A. Bradley made a business trip to Banff this week.

Mrs. J. Johnson, son and daughter of Winnipeg, arrived in the city on Wednesday on a visit to the home of the former's son, J. P. Johnson.

Rev. Mr. Dunsford, who has been conducting the services in the Immanuel church, for several weeks left this week for his home in Ontario. For the present the church of England, here is without a minister.

### DIED

BYSTROM—In Wetaskiwin, on the 25th inst., Ole Bystrom, aged 28 years.

### NOTICE TO CREDITORS

In the matter of the estate of Ole Bystrom, late of Pabau, in the Province of Alberta, farmer, deceased. NOTICE IS HEREBY GIVEN that all persons having any claim or demands against the late Ole Bystrom, who died on or about the 28th day of June, at the Scandinavian Hospital, Wetaskiwin, in the Province of Alberta, are required on or before the 21st day of July, 1910, to send by post prepaid to C. F. Sealund, in the Province of Alberta, administrator of the estate of the said Ole Bystrom, their names and addresses and full particulars of their claims in writing and a statement of their accounts and the nature of the securities if any held by them and such statement shall be verified by Statutory Declaration of the claimant or his agent.

AND TAKE NOTICE that after the 21st day of July 1910, C. F. Sealund will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which he then have had notice and that said C. F. Sealund, will not be liable for the said assets or any part thereof to any person of whose claim he shall not then have received notice.

Dated at Wetaskiwin this 30th day of June, 1910.

C. F. SEALUND  
Administrator for Estate  
Wetaskiwin

### Transient Ads.

J. D. Cowan, Brand Reader, Wetaskiwin. 14-3n.

STRAYED—FROM N. E. 1-26-43-11, on April 22nd, black mare, 1450 lbs, white stripe in face, one white hind foot, opposite hind foot barb wire scar; also scar on front foot, branded quarter circle Z on left thigh halter on; black pony mare, 800 lbs, branded J lazy V on shoulder, and S reversed on hip, rope around neck, heavy in foil; bay yearling horse colt, halter on. Reward for information leading to recovery. O. L. Swanson, Sedgewick. 14-3n.

## Industrial Spur Settled

One of the most important matters affecting the development and unity of Wetaskiwin, was settled on Wednesday evening, when Mr. C. S. Maharg, of the O. P. R. met the city council and arranged for the industrial spur to be built on the city's property immediately west of the electric light station. At least 30 warehouses can be built on the site agreed upon.

A survey will be on the ground in a few days and the grading will be proceeded without delay, and the steel laid.

This will bring the wholesale houses close to the centre of the city, and as the city purchased this property at a very low price, the best arrangements can be made with the wholesale firms desirous of locating here.

We understand the International Harvester Co. will at once commence the erection of a large warehouse to facilitate them in handling the large transferring business they have done at this point for some years.

### BORN

ROBERTSON—In Wetaskiwin, on the 27th inst., to Dr. and Mrs. R. D. Robertson, a daughter.

### BABY

K. O. Eggen visited his daughter, Miss Mabel, and other relatives in Calgary, this week.

A party of the Lawlenses went to Dried Meat Lake to spend Sunday. They returned with a large number of fish and reports of having spent a very enjoyable outing.

Cards arrived some time ago announcing the marriage of Miss B. Genneman, at her home in Ontario, to Mr. Johnson, on June 28th.

Surveyors are here subdividing the 30-acre tract adjoining town, which was purchased by Camrose parties in the spring. This will be the first addition to the townsite of Bawlf.

Miss Anna Eggen departed for St. Paul, on Friday after spending two weeks visiting friends and relatives in Bawlf. Miss Bertha Eggen accompanied her as far as Edmonton and is spending a few days in the Capital.

The two underground concrete cisterns which are being constructed to store water for village fire protection are practically completed. During the past few weeks we have noted several fire insurance raters with pencil and note-book rating the buildings of town, and now that adequate fire protection is nearly a realization the rats should be somewhat lower. The danger will be lower anyway.

Last week two of the Stratte boys who lived last week on the Clem Lane place east of town, were brought by the mounted police from their homestead near Provost, to answer to a charge of stealing cattle. It appears that during their stay on the Lewis place several head of cattle mysteriously disappeared and a few days ago the hide of one of them was found partially buried in the ground and was identified by the owner. This clue, together with other incriminating evidence, was sufficient to warrant their arrest. The preliminary trial was held at Dayland and their being no defence and no bail the boys were taken to the Fort to await trial.

### MILLET

(From The Packet)

Mr. E. Bertrand of Millet was in the city Friday attending to business interests here. Mr. Bertrand has 60 acres under crop this year and is well pleased with the harvest prospect. While the recent rains were very welcome, the grain was not suffering seriously from dry weather. Plain dealer.

Mr. F. T. Coats, a former Milletite has purchased Mr. Ira J. Grant's store and has taken possession. His family will be back here next month.

The young ladies of Millet gave Mr. and Mrs. T. Hughes a surprise party and dinner last evening. After allowing the damsel to pound away on the tin cans and rattle cow bells for a considerable time, Tom invited the bunch inside where ice cream and cake was served and a social evening enjoyed by all.

The picnic on Tuesday had to be postponed on account of the inclement weather. Rain commenced early in the day and poured heavily for a couple of hours, making the baseball diamond like a pond. In spite of the rain the Millet juniors played a game of ball with the West Liberty Swifts and skinned the last bunch 27-5. In the evening the local seniors matched themselves against the Coal Lake bunch and were again defeated, the score being 17-5. Past ball was not to be expected on such a wet diamond but the local boys went to pieces in the third inning and didn't recover again until the eighth, when it was too late to win out.

### CONSERVATIVES PLAN CAUCUS.

Calgary, June 22.—It has been learned that the Conservative party has decided to call a caucus very shortly in order to take a number of the important questions and conditions now before them.

This is a step that they have been considering during the whole of this year, but the time has not been ripe until the present. It does not mean that efforts are being made to run a man in each of the present bye-elections, but it does mean that the Conservatives hope and expect that a general election in the province will come almost as soon as many well-informed Liberals fear.

Dr. Brett, president of the Conservative association, is ill, and has been forced to take a long trip for his health. He will be gone at least three months. He has left instructions with his secretary to call a caucus for 10:30 o'clock, in Calgary, on Tuesday, July 5, and in all probability this caucus will decide on the provincial leader for the party, and they will then proceed to get in shape for the fight that is looked for in the near future.

### PREMIER RE-AUGUR

At his meeting in Marvill, on Wednesday night, Premier Sifton was challenged to set the policy regarding the A. & G. W. Railway. He said he would have to ask for the confidence of the people in this matter.

No member of the cabinet of the legislature had asked the question because they understood it was impossible for him to answer. There were two reasons: First the Royal Commission had not reported and could not report until the legislature met. Second: The sum of \$7,400,000 was lying in the bank for which the people were responsible. The company had a contract, signed, sealed and executed and the cancelling of it would be a serious business. If it must be done it must be in the best possible legal manner. A lawyer, who, occupying that position, would give the A. & G. W. Company or the other three large corporations, very anxious to get the money, information as to what the government was going to do that would be unworthy of confidence. That was his position and he did not intend to violate his trust. He, therefore, must decline to give any information. This clear-cut statement was greeted with hearty applause.

### AFTER A WHILE

The mother tired, with aching head, from sweeping floors and baking bread, called to her daughter: Susan, in the parlor dim, was playing for a tender hymn, methinks it was "The Maiden's Prayer"—a melody beyond compare. She cried, while playing on, in style: "I'll help you in a little while." Her lover blew in unawares—a fine young man with princely airs. His heart was free from sorrow; his head was full of high-class brains; most any girl would give her eyes to get him in so big a prize. He heard the mother's weary cry; and heard the damsel's reply, his bosom swelled with noble ire! His tawny eyes flashed streaks of fire! He cried: "Miss Susan Sarah Brown, it's up to me to turn you down! While ground hogs live and comets shine, you'll be no blushing bride of mine! The healthy girl who doesn't jump, and on her system get a bump when mother calls, I do not want; so get thee hence! Aroint! Aroint! I'll hunt me up a damsel fair who passes up "The Maiden's Prayer" when she has got a chance to chase the troublers from her mother's face!" Walt Mason.

Winnipeg, June 25.—A terrible cyclone struck the country south of Moose Jaw, Thursday afternoon. The dead: Ed. Maddigan and two children injured: his mother, two sisters and two brothers. Every shack, house and crop for miles in the path of the wind were destroyed.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by Red Cross Drug Store.

### RUINOUS RESULTS

The Devil's school is the night school, where not only boys, but girls have the first lessons of vice and immorality. It is dangerous for boys to be allowed to roam the streets late at night, but that practice is ruin for girls. While it invariably takes the delicate edge off maidenly modesty, it happens that very speedily if there is any modesty left it is not maidenly. It is more or less complete is sure to follow. The term "street walker" is a term of reproach but if it doesn't apply to every girl who frequents the streets at night, without escort, in the vast majority of cases, if the habit is persisted in, it is not long before the term will apply in its offensive sense.

## The Piano We Give Away

ON Dec. 24th Value \$450

What seemed to us to be a Question is now a Gratifying Success. It pays to be liberal with our trade.

Since we first announced that we should give away this beautiful Upton Parlor Grand piano to some one of our customers on December 24th, our business has shown a big increase in every department. Of course the unusual values we are offering have helped to make this increase and we shall continue along these lines. We are daily receiving New and attractive offerings from the factory centre and you will find our stocks complete in all lines regardless of the heavy daily demand. BE SURE AND ASK FOR YOUR PIANO VOTES WITH EVERY PURCHASE.

the people who are to  
be our fellow-men.

Brandon June 27.—For the first time this season leading farmers admit today that the scorching heat is working injury on the crops in the immediate district. Sunday the temperature was 96 with a hot wind, today at noon the thermometer registered 97, with a hotter wind than ever and there is danger of the heat record for the season being broken before the afternoon is over. Prominent farmers agree that the heat and wind is drying the land right out and the situation is becoming alarming, as there is no indication of immediate relief through rains.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by Red Cross Drug Store.

### IMPORTANT LEGAL DECISION.

An important legal decision has just been handed down by the Supreme court of British Columbia, that if not overruled by a higher court, will have a far-reaching influence on real estate transactions. The point at issue was whether or not the forfeiture clause in an agreement for sale of land can be enforced in law. The case is of local interest here in that several of the parties connected with it reside in this part of Alberta. Mr. A. L. Maris, of Leduc, is the lawyer who raised the contention that the forfeiture clause was not good, quite contrary to the accepted view in British Columbia and has had its views sustained by the courts of that province.

Briefly the case was this: A syndicate, of Alberta gentlemen some four years ago, purchased under sale a suburban property in Vancouver. They paid about \$2,000 on the named piece of about \$15,000. When the first time payment fell due, the financial depression of 1907 was on and they were unable to meet their obligation. The vendors served notice of forfeiture, under the terms of the agreement and re-entered into possession of the property, and sold it to a third party, who in turn sold it to a fourth. The property advanced in value to many times the original price. Two important questions arose, first whether or not the forfeiture clause was good; and second if it was not possible to collect damages from the vendor to the extent of the difference between the present value and the original sale price. The court has evidently ruled that no damages are obtainable, but that the vendor must restore the first payment to his first customer, since he is not in a position to accept the balance of the price as tendered to him and give title to the property. This judgment is in accord with some that have been given in Alberta, and if not overruled on appeal will result in many many purchasers of realty who had abandoned their contracts being able to recover their first payments.—Pulsedealer.

Loyal Orange Lodge No. 1776 will attend Divine Worship in the Methodist church, on Sunday evening July 10th. All members and visiting brothers are requested to meet in the hall over the Merchants Bank at 7 o'clock sharp.

### WEYBURN IN GRIP OF A HURRICANE

Weyburn, Sask., June 28.—A terrific wind storm passed over this section last night about 8 o'clock and for fully three-quarters of an hour the wind blew a hurricane. It struck Weyburn with tremendous force. Auto houses and out buildings, lumber piles and boxes were lifted and carried in all directions. Mr. Marshall Stewart's large feed stable on Second St., near the Soo hotel, had the roof lifted completely off and thrown with terrific force on the machinery and carriages in the yard, doing considerable damage, the amount of which cannot as yet be ascertained.

The greatest damage occurred on the farm of George Poff, who lives seven miles east of here; his house and farm buildings being both completely destroyed. Mrs. Poff had her arm broken by flying timbers in her attempt to rescue her infant son, but before she could reach the cradle a board struck the child, causing almost instant death.

### ALBERTA'S CAMP PLEASED FRENCH

Calgary, Alta., June 28.—A letter from Sir John French, sent from Lagan, in which he speaks highly of what he saw at the military encampment which ended here last Saturday was received yesterday by Lieut.-Col. Cruikshank, commander of military district No. 13. It is as follows: "I am sending you a line to tell you how pleased I was with my visit to Calgary, and to see your camp so clean and well laid out. The work of the cavalry and artillery in the morning was most interesting. I was much struck with the excellent material as regards, both the men and horses. The men rode wonderfully well and displayed much dash and go. I feel sure they are a very valuable and useful force. I shall carry away a pleasant recollection of Western Canada."

The first paper of interest on the A. & G. W. R. bonds is about due. It amounts to \$185,000 and will be paid on date due. Meantime, the work on the railway is at a standstill, awaiting the report of the commission. When the report is presented definite action will be taken by the government in regard to the future of the road.

### JOHN KNOX U.F.A. PICNIC

About 250 people gathered at the south side of Hewitt's Lake on Thursday last, to enjoy the picnic that had been arranged by the John Knox Union and school combined. After abundance of refreshments had been served and the afternoon's sport had nicely commenced the rain which had been threatening all morning and which doubtless kept many from being present, came down in torrents, thus terminating what would otherwise have been one of the most enjoyable and successful outings ever held in the Wetaskiwin district. Prior to dispersing, all the fruit and ice cream that had been provided for the occasion was sold at cost, hence everybody went away loaded with good things. The management wish to thank all those who showed such a keen interest in the success of the picnic and feel confident that when another effort is made to please the many friends in the district that there will be even a larger crowd present than on this occasion.

### WATERWORKS \$15.00 A YEAR

With a view to securing accurate information as to the success of waterworks and sewerage in other towns city clerk Mack wrote to several municipalities asking pertinent questions as to cost of installing and operating waterworks. The following from Maple Creek, Saskatchewan is rather interesting, inasmuch as their population is 1355 and assessment \$894,996.

### His Friend Said

"If They Don't Help or Cure You I Will Stand The Price."

Mr. J. B. Busk, Orangeville, Ont., writes: "I had been troubled with dysentery and liver complaint and tried many different remedies but obtained little or no benefit. A friend advised me to give your Laxa-Liver Pills a trial, but I told him I had tried so many 'cure alls' that I was tired paying out money for things giving me no benefit. He said, 'If they don't help, or cure you I will stand the price.' So seeing his faith in the Pills, I bought two vials, and I was not deceived, for they were the best I ever used. They gave relief which has had a more lasting effect than any medicine I have ever used, and the beauty about them is, they are small and easy to take. I believe them to be the best medicine for Liver Trouble there is to be found."

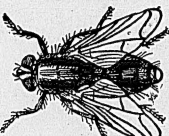

Price 25 cents a vial or 5 for \$1.00, at all dealers, or will be sent direct by mail on receipt of price.

The T. Millard Co., Limited, Toronto, Ont.

FOR SALE BY H. L. HIGGS

and they have installed a system of waterworks at a cost of \$76,000 and sewerage \$45,000. Although the waterworks was only introduced in the year 1907 the revenue derived each year is approximately \$7000 while the water rate for domestic service is \$15 per year.—High River Times.

The local vaccination commences on Friday of this week. The offices at the court house will be closed at noon during the months of July and August.

The female house fly lays from 120 to 150 eggs at a time, and these mature in two weeks. Under favorable conditions the descendants of a single pair will number millions in three months. Therefore all housekeepers should commence using

**WILSON'S  
FLY PADS**

early in the season, and thus cut off a large proportion of the summer crop.

Was Troubled  
With Dyspepsia.

For Years Could Get No Relief  
Until She Tried

Burdock Blood Bitters.

\*\*\*\*\* Mrs. Herman  
Dickson, Benton,  
N.B., writes: I  
have used Burdock  
Blood Bitters and  
found that few me-  
dicines can give  
such relief in dys-  
pepsia and stomach troubles. I was  
troubled for a number of years with  
dyspepsia and could get no relief until I  
tried Burdock Blood Bitters. I took  
three bottles and became well and I can  
now eat anything without it hurting me.  
I will highly recommend it to all who are  
troubled with stomach troubles.

Burdock Blood Bitters has an establish-  
ed reputation, extending over 34 years,  
as a specific for Dyspepsia in all its forms,  
and all diseases arising from this cause.

## The Times

Thursday, June 30, 1910

CAMROSE  
(From The Canadian)

Mr. J. A. O'Neil Hayes, of Edmon-  
ton, is visiting at the home of Mr.  
A. Womack.

The surveying of the lake shore at  
Miquelon Lake and the sale of fifteen  
lots, to date, marks the interest that  
is being taken in this beautiful re-  
sort by the leading citizens of Cam-  
rose.

The finest touring car in Camrose  
was received this week by Mr. Fran-  
cis Adam. The car is the "B. M. P."  
make and has a thirty horse power en-  
gine.

The failure of the hospital board to  
receive tenders for the hospital build-  
ing to come within the limit of the  
funds at the disposal of the board has  
resulted in a new set of plans being  
prepared by contractors Keyes &  
Baill.

The Brackett-Craig controversy in  
which local interest has been main-  
tained for some time terminated on Sat-  
urday morning, when Mr. Brackett  
was found guilty of the technical  
charge of assault on the policeman  
and fined \$5 and costs.

Wm. Rytielt who purchased a large  
touring car from Jos Morris, of Ed-  
monton last week, has now got the  
machine in good running order and  
may soon be seen striking out for  
rural parts where farm properties are  
held for sale.

Francois Long, manager of the Cam-  
rose Tannery, has for weeks been  
making preparations for an exhibit  
at the Calgary exhibition. He leaves  
on Monday with a large collection of  
robes, harness leather, shoe leather  
and furs which will be artistically ar-  
ranged in the compartment allotted  
to him. The space will be 4 feet  
frontage by 3 feet deep, thus giving  
every opportunity to make an attrac-  
tive display.

That several field of flat wheat  
north of Camrose are sufficiently far  
advanced to be heading out was the  
statement made to the Canadian this  
week by T. J. Cunningham, of Vegre-  
ville. Mr. Cunningham is the govern-  
ment homestead inspector for ranges  
8 to 21 inclusive and townships 43 to  
52 inclusive. During his brief visit  
to Camrose this week he stated that  
the prospects for a good crop in the  
Camrose district this year were very  
good. The season was a little late in  
opening up, but the fields had now  
plenty of moisture, and all that was  
wanted was warm weather to produce  
a rapid growth to the crops.

Mr. and Mrs. Frank Pike leave on  
Tuesday of next week on a two mon-  
th's trip to Mr. Pike's old home in  
Carleton Place, Newfoundland. Mr. Pike  
expects to spend all his vacation in  
Newfoundland, where he will chiefly  
be engaged in cod fishing. He has  
contracted to bring back with him  
several tubs of cod fish tongues, which  
he has vouched for as being a particu-  
larly fine delicacy. During the ab-  
sence of Mr. Pike, which will be Sep-  
tember first, his place as manager of  
the Merchants Bank will be filled by  
his brother, Mr. Jim Pike, of Orsow,  
Sask.

ALBERTA'S APPEAL MAY BE DE-  
LAYED

London, June 25.-Of the Canadian  
case which will come before the ju-  
dicial committee of the House of Lords  
this week on July 1st, the most im-  
portant among the two is that of the  
Alberta government regarding the  
taxation of Canadian Pacific lands.  
Many millions of dollars are in-  
volved. The counsel engaged for the  
Canadian Pacific Railway are Sir  
Robert Finlay and Messrs. Ewart,  
Stuart, Tupper and Greiman of the  
Canadian Bar, and for the Alberta  
Government, Sir Edward Carson and  
Messrs. Hamar Greenwood and S. B.  
Woods.

In view of the absence of Sir Robert  
Finlay and Mr. Ewart at the judi-  
cial arbitration, the case may go over  
to the November sittings. At each of  
the hearings the Canadian courts  
have upheld that the twenty-years ex-  
emption from taxation does not rest on  
the signing of the company's charter,  
but from the issue of letters patent,  
unless the land is actually sold and  
the agreement completed meanwhile.

Denmark is about to build 27 lines  
of track, with 400 to 500 miles  
of track. It has been recognized  
that the building of these railways  
will increase the value of adjoining  
land and it has been determined to  
take one third of this increase in val-  
ue for the state and it is estimated  
that this unearned increment will of  
itself more than meet the cost of  
building the roads.

## WHY SOME TOWNS GROW

"The reason why some towns grow  
is because there are men of push and  
energy in it who are not afraid to  
spend their money and time to boom  
their town. They erect substantial  
buildings, organize stock companies,  
and establish factories, secure the  
roads, work for public improvements  
and use every means in their power  
to induce people to locate in their  
city. Wherever they go they tell of  
the advantages of their town, they  
write about them in every letter, and  
send circulars and newspapers to all  
whom they can get to visit the city,  
and when one visits them, treat him  
so kindly that he falls in love with  
them and their city at once. It is  
enterprise and everyone pulling to-  
gether that makes a progressive town  
and don't let the fact escape your  
memory."

"To hear every person saying some-  
thing pleasant about its people and  
its interests is the surest, quickest  
and easiest way to make a town at-  
tractive to a stranger. One of the  
best ways in which to make a town  
attractive with that sort of attrac-  
tion that will draw other people to it  
is for every man and every woman to  
have a pleasant word for the people  
and the town generally.-Municipal  
World.

## A MIGHTY ARMY OF CLEAN HEADED CANADIANS

Thousands and thousands of heads  
that were dandruff fifty a year ago  
scrupulously clean to-day.  
This means that millions, yes bil-  
lions, of dandruff germs have been  
annihilated, and cannot continue their  
pernicious work of hair destruction.  
But best of all it means that there is  
a cure, an absolute certain cure for  
dandruff, one so prompt in its action  
and so marvelous in its results, that  
many are skeptical when told what it  
has done.

Perislan Sage is the name of the  
quick-acting hair restorer that is re-  
sponsible for a mighty army of clean-  
headed Canadians, and its action is  
so certain that the Red Cross Drug  
Store, the agent in Wetaskiwin, guar-  
antees it to stop falling hair, itching  
scalp and rube dandruff in two weeks  
or money back.

Perislan Sage makes women's hair  
soft, lustrous and luxuriant in a few  
days.  
The price of this delightful money-  
back hair dressing is only 50 cents a  
bottle at the Red Cross Drug Store,  
or direct, all charges prepaid, by Gil-  
mour Mfg. Co., Port Erie, Ont.

## POINTED PARAGRAPHS

The season for heated arguments is  
now open.

The sinner is in no hurry to collect  
his wages.

Inquisitive people acquire a lot of  
information that isn't so.

It is hard to keep the man down  
who is able to keep up appearances.

How we dislike the dentist who  
spares no pains.

A girl isn't necessarily an angel be-  
cause she's fly.

The average man can't understand  
why he has enemies.

Some animals (multiply quickly  
and some snakes are adders.

A genius is a man who tries to bor-  
row money-and gets it.

You may induce people to listen to  
your grievances-but what do they care?

Usually the man who sits at the  
head of the table does all the work  
and takes what is left.

## A LARGE ORDER

Paul Madge, of Ushorne township,  
who intends farming on a rather large  
scale in the Province of Alberta,  
has disposed of his effects and pur-  
poses leaving shortly. He has given  
an order to an implement agent at  
Exter for four 8-foot binders, a six-  
horse-power gasoline engine, three 20-  
disc drills, four lumber wagons, two  
6-foot mowers, a 10-foot rake, a dem-  
ocrat wagon, four disc harrows, four  
plows, two smoothing harrows and a  
20 horse-power traction with plows  
attached. When Mr. Madge departs  
he will almost have a train of his  
own, as he takes three cars of sheep  
one of horses, two of settlers' effects,  
two of cedar posts and one of fence  
wire.-Exeter Times.

## AN EXTIMPORE PRAYER

In the early days of Methodism in  
Scotland, a certain congregation  
where there was but one rich man, de-  
sired to build a chapel. The rich old  
Scotsman rose and said:  
"Brethren, we dinna need a new  
chapel; I'll gie £5 for repairs."  
"Brethren, it's worse than I  
thought it was. I'll make it 50 puns."  
"O Lord!" exclaimed a devoted  
brother on a back seat, "hit 'im  
again!"

## THE CANADIAN BANK OF COMMERCE

HEAD OFFICE: TORONTO ESTABLISHED 1867

## KELLEY & TORRANCE

### WILL REVOLUTIONIZE MAKING OF ENGINES

New Westminster, June 28.—An engine that is expected to make a sensation among those who use steam motive power, and that, it is said by experts who have examined it, will revolutionize the manufacture of engines has been invented by George Cassidy manager of the Columbia cold storage company, of this city. The invention is of three years' standing, and during that time has been thoroughly tested in the plant of the inventor. Applications have been made for further patents covering recent improvements. Patent rights have been secured in both America and Europe.

### Reciprocating Turbine

The engine is called a reciprocating turbine. Properly speaking, it is not really more or less than a simple reciprocating engine with three cylinders and a piston which imparts a rotary motion of the shaft on the turbine principle, without the use of connecting rods, cranks or eccentrics.

It differs from the reciprocating engine in the particular that it is confined in a circular casing similar to a turbine, and it would at first sight

be supposed to be a turbine. None of the working parts are visible.

In steam consumption the elaborate tests already made show that it has a saving of 50 per cent. over ordinary reciprocating engines. In cost of construction per horse power it will not exceed 50 per cent. of the cost of the ordinary reciprocating engine and in cost of maintenance it will not amount to 25 per cent. of the reciprocating engine. The working parts run in a bath, and are automatically oiled, which effectually insulates all the working parts.

### In One Direction Only

The present engine is built to run in one direction only, but there will be no mechanical difficulty in having one built to run in either direction, to be changed at will. The two purposes for which the engine are especially adapted are for marine work and generating electricity. The quality that commands it for marine work is the fact that it can be run, in either direction. It is also just as effective at low speed in steam consumption as at a high one, wherein it has an advantage over the turbine engine which is only effective at a maximum speed. It has no centre and can't be

started under a load at either direction. The new engine has also the advantage of high speed when necessary, as the piston speed efficiency is fully equal to twice that of a reciprocating engine which makes it an admirable engine for driving dynamo direct connected.

Quite a number of technical experts in Vancouver and New Westminster, have examined the engine, and all proclaim it an invention that will have a very wide influence on steam engines of the future.—Edmonton Bulletin.

### BENNETT TO RETIRE FROM POLITICS SOON

Calgary, June 28.—The rumor has been spread about the city that Mr. H. B. Bennett intended to resign at an early date, probably before the Conservative convention which is to be held here on July 5th. Doubtless the rumor has been caused by the fact that it was announced that a provincial leader would be appointed at that meeting for Mr. Bennett declines to call himself the leader, he is really the leader of his party in the legislature, whether he calls himself that or not.

The rumor has been strengthened by the fact that Mr. Bennett has taken no part in the bye-elections, although Conservatives are very actively engaged in contesting the elections both in Medicine Hat and Vermilion. "I have not resigned," said Mr. Bennett. "I have not told any party that I intended to announce my resignation at the Conservative Convention, which I believe will be held here next month. I know nothing of such a meeting except what I see in the newspapers."

"The rumor is news to me except that I intend to retire from politics at an early date. I cannot say when that will be. That is all that I can say about it."

Fort William, June 28.—Millions of dollars of damage has been caused by forest fires in the Atikokan district, where S. D. McLeary's lumber mill was destroyed by fire early this week. In addition to the mill about 500,000 feet of his lumber was destroyed, two and a half miles west of Atikokan. Six million and a half dollars' damage was done through the burning of timber there. No. 61, forty one square miles in extent, the property of Weyerhaeuser Co. of St. Paul.

### BOUNTIFUL CROPS ALMOST ASSURED

A trip through the district at the present time will convince the most pessimistic citizen of Alberta that the Wetaskiwin district is the most favored section of the province.

While the southern part of the province is badly in need of moisture, and the residents are fearful of a crop failure, up here in Central Alberta there is plenty of moisture and you can almost hear the grain growing. Fall wheat is going to be a splendid crop, the stand in almost every case being heavy, and practically none of the area under wheat suffered from winter killing. Oats, of which there is a very large acreage in this year, are looking their best, in fact never before have prospects been so bright for a record crop. The pastures are also in good condition, and stockmen have abundance of feed for their cattle.

One result of the good prospects in Central Alberta, is the steady flow of new homesteaders to the Wetaskiwin district. Many farmers who have prospected all other parts of the province have decided that the very best land in Alberta is to be found tributary to Wetaskiwin and land is moving more rapidly this summer than ever before. And one thing is notable—the settlers who are coming into this district are men of means, and are willing to pay good prices for what they consider the choicest lands in the whole Canadian West.

### HAS THIRTY-ONE IN HIS FAMILY

Quebec, June 28.—Pierre Poudrier, of St. Alexis des Monts, is being congratulated on the birth of his thirty-first child. Mr. Poudrier is sixty-three years old and has been married thrice. Seven children were born to his first wife, fifteen from his second, and from the last one.

Of these thirty-one children, twenty-one are still living, and the eldest is forty-three years of age. Mr. Poudrier appears no older than his eldest son.

A farewell meeting for Rev. and Mrs. Baker, will be held to-night at Olivet Baptist church. Mr. and Mrs. Baker leave this week to resume missionary work in Bolivia, South America.—Calgary Herald.

### News Notes

Manitoba elections take place on July 11th.

A most aggressive building campaign is now being inaugurated by the Alberta Pacific Elevator Company of Calgary. They aim to have, when the following season commences, a line capacity of 500,000 bushels.

Road Inspector, John Wright is at present in town looking after road work in our immediate vicinity. A road is to be opened from the new bridge, north of town, through the Hinkley ranch, and on east to Battle Lake. This will no doubt be good news for the Asper people, more especially those living north of the township line—Ponoka Herald.

Egg-laying competitions are very popular in many parts of Australia, and during the past few years some world's records have been broken. A twelve-month's contest has just been finished at Brisbane. Twenty pens of six birds each laid 24,670 eggs in twelve months, or on the average of 205 eggs per bird. The winning pen laid no less than 1,532 eggs for the twelve months.

To-morrow is his busy day; that's when the grocer's bill he'll pay, and when he'll fix the cellar door and when he'll mend the creaky floor and when he'll buy his wife a hat and when he'll tend this and that, and when he'll write the folks at home and when he'll buy that brush and comb and when he'll finish up his work and when he'll call down that fresh clerk and when he'll quit his habits bad and when he'll—"That's" all. It would be useless to enumerate the rest.

Pervious hundred thousand persons have perished in horrible form and some of the most fertile valleys in Africa are being depopulated all because of the tsetse fly which produces the sleeping sickness, the victim rapidly passing into spasms, insanity and death. Unless its ravages are speedily curbed, this fly or rather the parasite it carries and transmits, will devastate the rich valleys of the Limpopo river and the Uganda district. Eventually it is said by scientists on the ground, the black race will disappear and the white man with his scientific and sanitary methods will come in, destroy the tsetse fly and inherit as fair a land as the sun shines upon.

Irvine, Alta., experienced the worst fire in its history, when on Thursday fire threatened to destroy the whole town. The Alberta stable where the fire started, was completely gutted. About 41 horses were killed and a ten thousand dollar dwelling house was destroyed. The Alberta hotel was completely gutted on the east end.

Collingwood Schrieber, chief consulting engineer of the Grand Trunk Pacific railway, says he does not look for the final completion of the transcontinental road before the end of 1913. The great difficulty has been the mountain section and the scarcity of labor. A total of 915 miles has been laid with steel west of Winnipeg and of this 820 miles is stated by Mr. Schrieber to be in regular operation. From Prince Rupert east 249 miles is nearing completion and from Moose Creek west 189 miles. On the mountain section tracks are being laid over a division of 100 miles.

The inland revenue department has issued an interesting bulletin on bleached flour. Judging from the samples taken up by the inspectors in all parts of Canada, it would appear that 20 per cent. of Canadian flour now on the market is whitened by the addition of oxides of nitrogen. A small quantity of the oxides may be absorbed from the atmosphere, but there is no doubt that in some cases the flour has been exposed to nitrogen oxides for the purpose of bleaching it. There is no statute specifically forbidding this, but an order in council may be passed standardizing flour, which will declare impure any flour containing an appreciable quantity of these oxides of nitrogen. It is an open question as to whether this method of bleaching is deleterious.

### THE BAPTIST CHURCH

Next Sunday morning the pastor will preach the third sermon of the series of "Straight Talks to Christians." The topic is "Marks of the New Life." The evening sermon on "Sowing and Reaping" is especially for men. The singing will be led by a male choir and an accompanied quartette will sing. All are invited. The public schools close for the summer vacation this Thursday evening.

### EXHIBIT PRODUCTS OF THIS DISTRICT

In view of the fact that north and central Alberta will probably have the best crop in years this season the directors of the exhibition association in meeting last night decided to expend the sum of \$300 in gathering together a general exhibition of grains, grasses and roots, which are being grown in the district. This exhibit will be a large one and will fill a space is 50 by 50 feet and there will be a wall space of 15 feet in height. It will probably be located under the grand stand under the main entrance, there being abundance of room there. Mr. J. L. Forte, of Strathcona has been asked to gather the specimens.—Capital.

### MARRIED

WYBERT-HARRIS—At the parsonage, by Rev. A. R. Aldridge, B. A., on Wednesday, June 28th, 1910 Charles Stewart Wybert, of Miss Pearl Lillian Harris, all of Wetaskiwin.

## Had a Bad Cough?

FOR A NUMBER OF YEARS, WAS AFRAID IT WOULD TURN INTO Consumption.

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately or serious results may follow. Thousands have filled a consumptive grave through neglect. Never Neglect a Cough or Cold, it can have but one result. It leaves the throat or lungs, or both, affected. Mrs. A. E. Brown, of Ottawa, Ont., writes:—"I have had a very bad Cough every winter for a number of years which I was afraid would turn into consumption. I tried a great many remedies but only received temporary relief until I got a bottle of Dr. Wood's Norway Pine Syrup and after taking two bottles my cough was cured. I am never without a bottle of Norway Pine Syrup. Dr. Wood's Norway Pine Syrup is the medicine of all throat and lung complaints, relieving or curing all Coughs, Colds, Bronchitis, Asthma, Whooping Cough, Sore Throat, etc., and preventing Pneumonia and Consumption. So great has been the success of this wonderful remedy, it is only natural that thousands of people are turning to it. It doesn't do me any harm by taking anything but 'Dr. Wood's.' Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

## RECEPTION TO MR. CLAUDE HUGHES

Mrs. John West opened her hospitable home on Monday evening in honor of Mr. Claude Hughes, when the Amalgamated Choir of this city tendered him a brilliant reception.

The home was beautifully decorated and a pleasant evening was enjoyed. After refreshments had been served Mr. Hughes was presented with a neat address by Rev. Father L. C. Walravens, after which Miss Florence Kelley, on behalf of the Amalgamated Choir and pupil of Mr. Hughes, presented him with a well-filled purse. After hearty felicitations, Mr. Hughes responded to the address with much feeling. Mr. Hughes leaves in a few days to visit in the musical centres of Europe.

A splendid musical programme was rendered during the evening. Mrs. Percy Montgomery, Miss Hope West and Miss Spencer, rendering solos. The following is a copy of the address:

On the eve of your departure from Wetaskiwin, we as your pupils and as members of the Amalgamated Choir, wish to express to you our appreciation of your work. The unceasing efforts that you have always shown in the advancement of your pupils and the kindly interest in the members of the Choir, have made not only for yourself a host of warm friends in Wetaskiwin, but the honors which have been attained by those under your tuition, must be most gratifying to you.

We are sorry to lose you, but feel that upon your return from the Old Land Wetaskiwin will not have lost all its charms in the affection of another and that you will return to again advance the high standing that this city has now gained in the musical sphere in Alberta. We know that you have worked hard and we trust that this small token will convince you of the kindly feelings and the appreciation we have for you.

Wishing you a safe journey to your old home, a happy new home and a safe journey back to Sunny Alberta.

Signed on behalf of your pupils and of the Amalgamated Choir.

Signed: Rev. Father Walravens, Florence Kelley, E. Edwards, A. P. McCallum, J. F. Ferry, Harriet West, Adelaide Montgomery, J. M. Peterson, Vera E. Smith, Jean Horner, Mildred Aldridge, Paul Tipper, Jessie L. Pacey, Grace A. Spencer, Mrs. F. W. Tracey, Minnie A. Dudgeon, Arnold Gardner, Norman Gardner, L. F. Kelley, H. G. Bell.

## O. CANADA

Prize poem, by Mercy E. Powell We Colulloch, winner of the competition conducted by Collier's Weekly.

O Canada in praise of thee we sing, From echoing hill our anthems proudly ring.

With fertile plains, and mountains grand, With lakes and rivers clear, Eternal beauty thou dost stand! Throughout the clanging year, Lord God of Hosts, we now implore, Bless our dear land this day and ever more.

Bless our dear land this day and ever more.

Dear Canada! for thee our fathers wrought, Thy good and ours unselfishly they sought, With steadfast hand and fearless mind

They felled the forest domes, Content at last to leave behind, A heritage of homes.

Lord God of Hosts! we now implore, Bless our dear land this day and ever more.

Bless Canada! the homeland that we love, Thy freedom came a gift from God above,

Thy righteous laws, thy justice fair, Give manhood's liberty;

We thank our God that we may share Thy glorious destiny.

Lord God of Hosts! we now implore, Bless our dear land this day and ever more.

Bless our dear land this day and ever more.

## EGGS FOR HATCHING

A story is told by a poultry dealer. He had a Barred Rock hen which had a record of 351 eggs. A farmer wanted a setting of this hen's eggs which the breeder was willing to sell, but when he named a price of \$10.00 his friend nearly collapsed. He would be willing to pay the current price, twenty-five cents. Needless to say he didn't get any eggs. This same breeder, to encourage his neighbor to breed good stock offered them a complete setting for \$1.00 and agreed to pay \$1.00 for the pick of the hatching, but couldn't get any takers. No wonder we import more eggs than we export.—Canadian Farm.

President Taft, in his speech, at Jackson, Mich., on Saturday, proclaimed socialism to be the greatest problem that confronts the American people, an issue that is soon to come and must be skillfully met.

## News Notes

Stettin, June 23.—Stettin is to have another branch of the C. N. R. Grading will be commenced, without delay. The line will run west of the town, parallel with the C.P.R. as far as Lacombe and thence to the "Brazos" coal fields.

For the encouragement of settlement of the land along their main line west of Winnipeg and along their branch lines the Grand Trunk Pacific have established a settlers' passenger rate of one cent per mile over their entire system west of the prairie city, which rate has been in effect for the past two or three months.

Fort Saskatchewan, Alta., June 27.—Charles Weber, aged 25, son of Robert Weber, a farmer living ten miles east, started for a neighbor's on horse back to get some bread. When he did not return, friends went out to investigate and found the man and the horse dead. The horse had broken its neck and fallen on the man.

Calgary, Alta., June 27.—District Superintendent, C. S. Maharg, of the C. P. R., said Saturday that the trouble spoken of in the despatches from Montreal does not affect the western lines of the C. P. R. as far as he knows. He thinks the difficulty exists only in the territory to the east. Trainers also say that they have heard nothing of the trouble.

At the meeting of the Railway Commissioners, held at Ottawa last week, among other railway matters dealt with was the line from Sedgewick to Ellerslie, a station a few miles south of Strathcona, and received their approval. This is another step in the march of progress, which is to make Sedgewick a town of importance in the near future.—Sedgewick Sentinel.

## ORANGEMEN

All members of the Orange Association residing in the city and surrounding district are requested to meet in the lodge room, Merchants Bank Block, on Tuesday morning July 12, 1910, to attend the celebration at Edmonton in a body. Visiting brothers are cordially invited to be present.

## No "Flying Start" required with this Mower

If your mower isn't a Frost & Wood, very likely you have to back it up several feet and get a "flying start" before the knives will cut. That is because it is made on the External Gear principle.

## Frost & Wood No. 8 Mower

We could tell you here the difference between External Gear Mowers and Internal Gear Mowers, but it would require a lot of space, and we can explain the difference more readily if you'll drop in and see us. We also want to show you the Large Bearings used in the Stay-light Connection between Cutter Bar and Main Power Frame, as well as the Double Traces used to protect the working parts from jars and jolts—and several other features exclusive to the Frost & Wood No. 8 Mower. Call and see us at your earliest convenience.
